SUMMARY

Associate Product Manager with hands-on experience building and shipping SaaS products across web, mobile, and conversational AI. Experienced in taking customer problems from discovery to solutions, using product analytics, customer insights, and KPIs to drive feature adoption and roadmap decisions. Shipped 20+ product enhancements, reducing customer-reported issues by 30%+ and increasing feature adoption by 25%+, with a focus on scalable, user-centric products.

EXPERIENCE

Associate Product Manager, Abmiro Solutions Pvt Ltd 12/2025 – Present | Pune, Maharashtra
Product: Rekart ☑ — SaaS-based Delivery Management Platform for Subscription and Recurring Delivery Businesses

- **Led end-to-end product execution for 20+ enhancements** across the Admin Panel, Customer App, and Delivery Rider App, collaborating with Engineering, Business, Customer Support, and end users from discovery through release.
- **Reduced customer-reported issues by 30%+** by identifying product gaps, improving user workflows, strengthening release validation, and incorporating continuous customer feedback into product improvements.
- **Increased feature adoption by 25%+** by translating customer and business needs into clear PRDs, user stories, acceptance criteria, and intuitive product workflows.
- Leveraged **Mixpanel** to analyze user engagement, feature usage, and adoption trends; translated insights into **KPIs and data-driven prioritization for the next-phase product roadmap**.
- Conducted **market research, competitor analysis, and user persona studies** to identify product opportunities, validate requirements, and support feature prioritization and roadmap decisions.
- Managed post-release product performance by tracking **adoption, engagement, customer feedback, and success metrics**, identifying enhancement opportunities and driving continuous product optimization.

Product Growth Intern, Beep App 10/2025 – 12/2025 | Remote

- Engaged with **100+ learners and job seekers weekly** to understand user needs, communicate product value, and drive awareness of Beep's technology learning and career platform.
- Supported user acquisition and engagement initiatives that contributed to a **20%+ increase in user engagement** and improved retention through personalized communication and targeted outreach.

PROJECTS

WhatsApp AI Assistant — NLP-Based Conversational Product 04/2026 – Present

- Contributed to the development and evolution of an **NLP-based WhatsApp AI Assistant**, defining user journeys, conversational flows, intents, requirements, and use cases across Phase 1 and Phase 2.
- Enabled customers to **place orders, manage subscriptions, make payments, check wallet balance/payment history, receive order/payment updates, register accounts, and capture delivery addresses** through conversational interactions.
- Achieved **30% user engagement**, reduced the number of customers at risk of churn by 10%, and achieved a **90%+ successful response rate** for supported customer queries.
- Analyzed engagement, retention, success rates, and unsuccessful/unsupported cases to identify NLP and conversation-flow improvements, prioritize enhancements, shape the roadmap, and drive adoption through product newsletters and feature campaigns.

Product Strategy & Generative AI — Product Project 09/2024 – 05/2025

- Analyzed feedback from **50+ potential users** to identify key pain points and prioritize high-impact product opportunities using **RICE and MoSCoW frameworks**.
- Analyzed 5+ competitors to uncover product gaps and positioning opportunities.
- Developed a **data-driven GTM strategy** with projected **20% user adoption growth over 6 months** and **15% reduction in research and planning costs**.
